

A photograph showing the components of a Kirsch Architrac Rail System. At the top, a white horizontal track is mounted with several white plastic hangers. Below it, a vertical white track is shown. In the foreground, two remote controls are displayed: a black one on the left and a white one in the center. Both remotes have a small green LCD screen at the top showing the number '15', and several buttons below. The AMP logo is visible at the bottom of each remote.

ON THE RIGHT TRACK

A REAL SMOOTH OPERATOR

Our Architrac® Rail Systems are one of the most efficient drapery hardware products around. With a variety of configurable styles to fit almost any of your projects and spaces, you'll find all of your expectations exceeded.

This performance focused track will glide through even your most demanding applications with ease.

Architrac®, it's practical precision.
